Asunto: Re: Renewal Password Manager Pro @itaipu.gov.py

Hi Andrea,

I guess we have denied you to work on this account last time

I kindly request not to work on it

Regards

Hi Team;

The client is once again requesting the renewal quote for his Password Manager Pro Multi-Language Enterprise Edition license - AMS Model - Annual Maintenance and Support fee for 20 Administrators (unrestricted resources and users) and 25 Keys - License ID 379548.

You told us that you have not renewed due to problems with the account reservation, could you confirm that you have not renewed it last year?

Company: Itaipu Binacional

Domain: @itaipu.gov.py

I await your response.

PD: I send you this email again, based on the client's previous email and with the technical specifications of the tender.

Regards,
